

## Institutional Subscriptions

From October the 1<sup>st</sup> 2004, PAHO electronic publications will have individual and institutional prices.

This subscription will be valid for one year on a calendar basis (January-December.) If you subscribe to any of our electronic publications on October, your subscription will be available until December next year.

If you subscribe to any of our electronic publications on August, you will have the option to pay one year and half and have access until the end of next year. If you decided not to pay for one year and a half, your access will be until December of the current year.

If you represent an institution (University, NGO, Medical Institution, Government Institution, Hospital, Association, International Organization, and Pharmaceutical Laboratories), you must contact Ms. Evelin Rodriguez:

## How to have access our Electronic Publications

Our electronic publications are hosted at ingenta select. Once you have purchased the publication through our Online Bookstore, you should follow the steps below to gain one year's access to the electronic version of the selected title.

1. If you have registered to other journals or publications at Ingenta select, you should have a CID number, which you can send to [rodrigue@paho.org](mailto:rodrigue@paho.org), and this will give you access in 24 hours to the electronic title. If you don't have a CID number, you should follow step 2.
2. Go to this link: (<https://www.ingentaconnect.com/register/institutional> ), give your contact details and your IP address range(s), or a username and password if this is your preferred method of access. Once you fill out this form, you will be allocated an ID number (CID) that should be noted and forwarded to [rodrigue@paho.org](mailto:rodrigue@paho.org) as well as your username and password in order to receive access to the electronic title selected.

If you are an institution we recommend you to use IP address recognition instead of username and password.
