
The 2007–2008 annual report on the work of the Pan American Sanitary Bureau highlights the Bureau’s major work in providing technical cooperation during this period within the framework of the 2003–2007 and 2008–2012 Strategic Plans of the Pan American Sanitary Bureau, defined by the Governing Bodies of the Pan American Health Organization.

THE QUEST FOR A HEALTHY AMERICA: CELEBRATING 100 YEARS OF HEALTH

Through the use of evocative archival and contemporary photographs, this book tells the story of public health in the Americas over the last century, revealing the countless changes that have occurred in human health and socioeconomic development in the Region. Its aim is to honor past achievements and inspire future advances in public health by describing contemporary struggles and the aspiration for health and equity by all the people of the Americas. This collection of photo essays illustrates the power of human solidarity in achieving progress, generation by generation, in communities and nations across the Region.

PRO SALUTE NOVI MUNDI: A HISTORY OF THE PAN AMERICAN HEALTH ORGANIZATION

Pro Salute Novi Mundi celebrates PAHO’s contribution to maintaining a united front against disease and improving health care infrastructure throughout the Americas over its first 90 years. By recalling health care milestones, this volume pays tribute to the men and women of vision, determination, and knowledge who, under the auspices of the Organization, blazed the trail toward health for all.

This publication tells it all—from the establishment of the Organization in 1902 and its evolution over the next 90 years to the struggles against smallpox, yellow fever, malaria, polio, natural disasters, Aedes aegypti, measles, cancer, and AIDS. Also examined are PAHO’s efforts to spread technology and encourage research, to fill the gaps in the health care workforce, to encourage healthy lifestyles, and to promote pro-health government policies.

SPANISH PUBLICATION OF INTEREST

LA ECONOMÍA INVISIBLE Y LAS DESIGUALDADES DE GÉNERO

La desigual división sexual del trabajo es el factor explicativo de muchas discriminaciones que afectan a las mujeres. Para facilitar la formulación de políticas públicas es necesario desarrollar métodos que permitan cuantificar y valorar la contribución económica del trabajo no remunerado de las mujeres en el hogar, la agricultura, la producción de alimentos, la reproducción y la labor comunitaria, y diseñar indicadores de género para dimensionar estos aportes en relación al producto interno bruto (PIB) de los países. Asimismo se debe incluir en las estadísticas de los países a las personas que realizan trabajos no remunerados, tal como establecen algunas de las acciones estratégicas planteadas en el marco de la Conferencia Regional sobre la Integración de la Mujer en el Desarrollo Económico y Social de 1994 y en la Plataforma de Acción para la Igualdad, Paz y Desarrollo de la Conferencia Mundial sobre la Mujer de 1995 (Beijing 1995). La carencia de indicadores para la medición y valoración de la importancia de las actividades económicas no remuneradas, dado que son desarrolladas principalmente por mujeres, hace invisible la verdadera contribución de las mujeres al bienestar y al desarrollo económico y social de los países.

Este libro presenta una colección de trabajos sobre aspectos conceptuales, metodológicos y empíricos de la medición y valoración del tiempo dedicado por los miembros del hogar a actividades productivas no de mercado, es decir no remunerables, que son invisibles desde el punto de vista de la contabilidad nacional de los países.

EVERY MONTH THE REVISTA/JOURNAL PROVIDES:

- Original, peer-reviewed research articles in English, Portuguese, and Spanish; all original-research articles include an abstract in the article’s original language and in a second language (English or Spanish).
- Coverage of emerging health trends and news from the Americas on topics that include disasters, food and nutrition, health economics, health systems and services, infectious diseases, noncommunicable diseases, maternal and child health, mental health, and women’s health.

ABSTRACTED/INDEXED IN:
Current Contents/Social & Behavioral Sciences, Social Sciences Citation Index, Index Medicus (MEDLINE/PubMed), Excerpta Medica (EMBASE), Latin American and Caribbean Health Sciences Literature (LILACS), Biological Abstracts, Cambridge Scientific Abstracts, and many others.

SUBSCRIBE TO THE PAHO ELECTRONIC COLLECTION

This service allows readers to access the Organization’s most frequently consulted titles in electronic format in two different ways: they can download specific chapters, sections, or an entire publication on a pay-per-view basis, or they can subscribe for one year to the entire collection.

Subscribers have access to the Collection through the Ingenta Connect compilation service. Ingenta Connect is an online bibliographical service and global research gateway that offers: more than 700 full-text articles in PDF format (some free, some pay-per-view), linking of bibliographical references for indexed articles, and an easy-to-navigate, user-friendly format.

Separately and together, the components of the PAHO Electronic Collection are valuable reference tools for decision makers in health-related issues, public health and medical professionals and students, scientific researchers, and all others interested in the potential contribution of human health to socioeconomic development and well-being.

## RIGHTS TO TRANSLATE AND REPRINT PAHO PUBLICATIONS

PAHO produces and disseminates reliable information and provides guidance in all matters dealing with public health policy and practice, as a way to fill the current breach between scientific and technical analysis and the conduct of health promotion, disease prevention, and health care activities.

We welcome publishers, government and academic institutions, and NGOs to become multipliers of the Organization’s scientific and technical information by making PAHO’s intellectual output available in the appropriate languages in some of the world’s lesser-developed areas where access to basic and reliable public health information is critical.

PAHO uses a standard licensing agreement adaptable to specific circumstances. Commercial and noncommercial requests will be considered as well, with the payment of nominal royalties to PAHO, depending on the particular case.

CUSTOMERS INSIDE THE U.S.A.
Orders should be sent to the local sales agent who will accept payment in local currency at their local price level. If no sales agent exists in the country, you can contact the PAHO/WHO Country Office to send the order to the PAHO Sales and Distribution Center in the United States. All checks received in the U.S.A. must be made payable to PAHO, in U.S. dollars, and drawn against a U.S. bank. Payment also may be made by international credit card (Visa, MasterCard, American Express).

SALES AGENTS
Contact sales@paho.org to inquire about sales agents and discounts. Discounts offered for product sets are not valid for sales agents.

CLAIMS, RETURNS, AND CREDIT POLICY
PAHO is not responsible for books damaged in foreign mail systems and must charge for the reshipment of damaged orders. Credit will be issued directly to the purchaser only if the book delivered was an error on the part of PAHO or if the original book is no longer available. PAHO will not issue cash refunds for returned books.

BACK ORDERS
Books will be sent based on availability. If a book in your order is not available, it will be back-ordered and sent to you as soon as possible.

WEB 2.0: A NEW FORM OF WORK IN THE PAN AMERICAN HEALTH ORGANIZATION

The new PAHO Web encompasses the following fundamental principles with regard to the dissemination of and access to all content produced by PAHO:

- Equity
- Convergence
- Standardization
- Scalability
- Integration with WHO

The new Web 2.0 ensures and promotes the convergence of all institutional portals of the Country Offices and Specialized Centers, as well as the Virtual Health Library, the Virtual Campus in Public Health, and the Regional Public Health Observatory.
