2009
HANTAVIRUS IN THE AMERICAS: GUIDELINES FOR PREVENTION, DIAGNOSIS, TREATMENT, AND CONTROL

This publication presents an extensive view of hantavirus pulmonary syndrome (HPS), its clinical manifestations, methods of preventing infection, and measures taken by governments in the Region of the Americas to monitor hantaviruses and educate health professionals and the general public about the disease. This comprehensive manual begins by describing the different hantaviruses known in the Americas and their reservoirs, rodent ecology and zoology, and the epidemiology of human disease in the Region. Upon this foundation, the manual describes the disease’s clinical presentation and diagnosis and presents guidelines for HPS surveillance, treatment, and case management. It also provides detailed, easy-to-follow instructions for preventing infection in the home, hospital, and laboratory, as well as for cleaning rodent-infested areas. The importance of educating health professionals and the general public about the disease is stressed through examples of communication strategies used in different countries of the Region. The publication also provides an overview of communication tools that can be adapted to educate diverse populations about HPS and other communicable diseases.

PERSPECTIVES AND POSSIBILITIES OF CONTROL AND ERADICATION OF HYDATIDOSIS: REPORT OF THE PAHO/WHO WORKING GROUP

This publication presents experiences on eradicating and controlling hydatidosis, examines advanced technology in control methods, and looks at the hydatidosis panorama in Latin America. The book gathers the contributions of distinguished field scientists with experience in control and eradication programs, as well as surveillance activities and the preparation of plans of action for the eradication of the disease in various situations. Hydatid disease is under control in Argentina and Chile, and the incidence of hydatidosis has been reduced in Uruguay. This publication provides guidance to political and technical authorities in countries where hydatid disease remains a public health problem, both in terms of decision making and for organizing programs directed toward the elimination of this zoonosis.

ZOONOSES AND COMMUNICABLE DISEASES COMMON TO MAN AND ANIMALS, THIRD EDITION

“This third edition is a phenomenal reference textbook. It is a remarkable compilation of information, equally useful to veterinarians and physicians in North America and around the world. This is a reference that belongs on the shelf of every veterinarian and physician. Reasonably priced, it will serve students and practitioners for years to come.”

—Journal of the American Veterinary Medical Association

In recent years, zoonoses and communicable diseases common to man and animals have gained increasing attention worldwide. Human diseases that have their origins in infected animals, such as West Nile fever and Creutzfeldt-Jakob disease, have highlighted the need for a better understanding of animal diseases. The ease and speed of modern travel facilitate the spread of diseases once confined to specific geographic areas, as recently occurred with the widely publicized severe acute respiratory syndrome (SARS) epidemic. Animal migration and trade pose a similar threat, as was shown by the outbreaks in the United States of West Nile fever and, most recently, monkeypox—two diseases not previously known in the Western Hemisphere. Each of these examples highlights the need for accurate, up-to-date information, such as that presented in the latest edition of Zoonoses and Communicable Diseases Common to Man and Animals.

This edition, published for the first time in three volumes, covers:

Vol. I. Bacterioses and mycoses
Vol. II. Chlamydioses, rickettsioses, and viroses
Vol. III. Parasitoses

This series provides a detailed overview of the most important historic and emerging zoonotic diseases, such as Ebola hemorrhagic fever, foot-and-mouth disease, influenza, giardiasis, Japanese encephalitis, shigellosis, and spongiform encephalopathies, with information ranging from their first appearance and most important outbreaks to the latest scientific knowledge of the diseases and their causative agents.

This book is an essential tool for biologists, parasitologists, virologists, veterinarians, physicians, epidemiologists, and workers in public health and animal health institutions, as well as professors, researchers, and students in these areas. All of these groups will find the third edition of Zoonoses and Communicable Diseases Common to Man and Animals to be an invaluable addition to their collection of most-consulted reference works.

FOR YOUR CONVENIENCE ZOONOSES IS NOW AVAILABLE ON CD-ROM!

The CD-ROM of this popular book contains the three volumes of the print version in PDF format both in English and Spanish. Use of the software will enable access to each of the particular diseases, advanced searches, and use of the two language versions simultaneously.
REVISTA PANAMERICANA DE SALUD PÚBLICA/
PAN AMERICAN JOURNAL OF PUBLIC HEALTH

EVERY MONTH THE REVISTA/JOURNAL PROVIDES:

- Original, peer-reviewed research articles in English, Portuguese, and Spanish; all original-research articles include an abstract in the article’s original language and in a second language (English or Spanish).
- Coverage of emerging health trends and news from the Americas on topics that include disasters, food and nutrition, health economics, health systems and services, infectious diseases, noncommunicable diseases, maternal and child health, mental health, and women’s health.

ABSTRACTED/INDEXED IN:
Current Contents/Social & Behavioral Sciences, Social Sciences Citation Index, Index Medicus (MEDLINE/PubMed), Excerpta Medica (EMBASE), Latin American and Caribbean Health Sciences Literature (LILACS), Biological Abstracts, Cambridge Scientific Abstracts, and many others.

AVAILABLE IN ELECTRONIC FORM:
The Revista/Journal has its own interactive Web site, at: http://journal.paho.org. On the site you can access the current issue and back issues of the Revista/Journal. You can also register to receive our monthly table of contents e-mail alert.

The electronic version of the complete text of the Revista/Journal is also available free of charge through SciELO (http://www.scielo.org/) and for paid subscribers through Ingenta Connect (http://www.ingentaconnect.com/), an online bibliographical service and global research gateway. Subscribers to Ingenta Connect can access all the Revista/Journal issues and other PAHO publications.

SUBSCRIPTION PRICES EFFECTIVE JANUARY 2009. (Bulk discounts are also available.)

SUBSCRIBE TO THE PAHO ELECTRONIC COLLECTION

This service allows readers to access the Organization’s most frequently consulted titles in electronic format in two different ways: they can download specific chapters, sections, or an entire publication on a pay-per-view basis, or they can subscribe for one year to the entire collection.

Subscribers have access to the Collection through the Ingenta Connect compilation service. Ingenta Connect is an online bibliographical service and global research gateway that offers: more than 700 full-text articles in PDF format (some free, some pay-per-view), linking of bibliographical references for indexed articles, and an easy-to-navigate, user-friendly format.

Separately and together, the components of the PAHO Electronic Collection are valuable reference tools for decision makers in health-related issues, public health and medical professionals and students, scientific researchers, and all others interested in the potential contribution of human health to socioeconomic development and well-being.

All subscribers to this collection will have access to these titles:

- Building Better Health: A Handbook of Behavioral Change;
- Disasters: Selected Readings;
- Health in the Americas, 2002 Edition;
- Health in the Americas, 2007 Edition;
- Health Promotion: An Anthology;
- Health Statistics from the Americas, 2003 Edition;
- Health Statistics from the Americas, 2006 Edition;
- Investment in Health: Social and Economic Returns;
- Obesity and Poverty: A New Public Health Challenge;
- Recent Advances in Immunization, 2nd Edition;
- The Challenge of Epidemiology: Issues and Selected Readings;
- Vaccines: Preventing Disease and Protecting Health;
- Youth: Choices and Change;
- Zoonoses and Communicable Diseases Common to Man and Animals;
- Public Health in the Americas

All subscribers to this collection will also have access to the following Spanish titles: Alimentos, nutrición y la prevención del cáncer: una perspectiva mundial; Cómo escribir y publicar trabajos científicos, 4ta. ed.; El control de las enfermedades transmisibles, 17a edición; Estadísticas de salud de las Américas, edición de 2003; Promoción de la salud: una antología; Glosario de medicamentos: desarrollo, evaluación y uso; La salud en las Américas, edición de 2002; La salud y los derechos humanos. Aspectos éticos y morales; Zoonosis y enfermedades transmisibles comunes al hombre y a los animales, 3a ed., 3 volúmenes; Próximamente: Investigación aplicada en salud pública. Métodos cualitativos.

This list of publications, already diverse in its offerings, will continue to expand over time. As the collection grows, the subscription price will remain the same, and those individuals who have already subscribed will have access to the newer works as well.
### RIGHTS TO TRANSLATE AND REPRINT PAHO PUBLICATIONS

PAHO produces and disseminates reliable information and provides guidance in all matters dealing with public health policy and practice, as a way to fill the current breach between scientific and technical analysis and the conduct of health promotion, disease prevention, and health care activities.

We welcome publishers, government and academic institutions, and NGOs to become multipliers of the Organization’s scientific and technical information by making PAHO’s intellectual output available in the appropriate languages in some of the world’s lesser-developed areas where access to basic and reliable public health information is critical.

PAHO uses a standard licensing agreement adaptable to specific circumstances. Commercial and noncommercial requests will be considered as well, with the payment of nominal royalties to PAHO, depending on the particular case.

WEB 2.0: A NEW FORM OF WORK IN THE PAN AMERICAN HEALTH ORGANIZATION

The new PAHO Web encompasses the following fundamental principles with regard to the dissemination of and access to all content produced by PAHO:

- Equity
- Convergence
- Standardization
- Scalability
- Integration with WHO

The new Web 2.0 ensures and promotes the convergence of all institutional portals of the Country Offices and Specialized Centers, as well as the Virtual Health Library, the Virtual Campus in Public Health, and the Regional Public Health Observatory.

Visit our Web site and give us your opinion: http://www.paho.org
