PROMOTING ORAL HEALTH: THE USE OF SALT FLUORIDATION TO PREVENT DENTAL CARIES

“Overall, this is an excellent, cost-effective reference for oral health educators and community oral health programs. It is filled with well-researched, practical scientific, historical, technical and behavioral information about salt fluoridation.”

—Canadian Journal of Dental Hygiene

Fluoridating salt to prevent dental caries is one of the most successful—and cost-effective—public health interventions in modern times. For a mere 6 cents per person per year, a country can reduce dental caries by as much as 84%. And, for every US\$ 1 spent on the effort, there are savings to be gained in no-longer-needed dental treatment on the order of US\$ 250 per person per year. Salt fluoridation also is highly equitable, as its benefits reach rich and poor, young and old, urban and rural dwellers, even those living in remote areas who do not have access to dental care services. For countries that have unreliable water supply systems, salt fluoridation programs avoid the problems posed by fluoridating water.

In *Promoting Oral Health: The Use of Salt Fluoridation to Prevent Dental Caries* you will find everything you need to know about salt fluoridation. The book's first part traces the history of salt fluoridation programs, beginning with the earliest attempts in Switzerland in the 1950s to more recent success stories in Europe and the Americas. The second section is a how-to treatise for planning, launching, running, monitoring, and evaluating salt fluoridation programs. The third section offers recommendations for launching a salt fluoridation program, blueprints for proposing

and enacting salt fluoridation legislation, and detailed standardized research protocols and sample forms for conducting epidemiological research—all essential tools for public health workers.

As more and more countries start salt fluoridation programs, *Promoting Oral Health: The Use of Salt Fluoridation to Prevent Dental Caries* will become an essential road map for those charged with planning and implementing them.

EMERGENCY MEDICAL SERVICES SYSTEMS DEVELOPMENT: LESSONS LEARNED FROM THE UNITED STATES OF AMERICA FOR DEVELOPING COUNTRIES

This text provides guidance to policymakers considering the development of a formal complex emergency medical services (EMS) system. The book is predicated on the experience and history of models commonly found in the United States and in many European countries, and analyzes and profiles common aspects of the core elements of those systems. It is anticipated that policymakers in health and public safety ministries, national emergency commissions, nongovernmental organizations, and other bodies charged with the responsibility of establishing, overseeing, or providing EMS care can use this compilation as a frame of reference when designing their system's model.

SUSCRIBE TO THE PAHO ELECTRONIC COLLECTION

This service allows readers to access the Organization's most frequently consulted titles in electronic format in two different ways: they can download specific chapters, sections, or an entire publication on a pay-per-view basis, or they can subscribe for one year to the entire collection.

Subscribers have access to the Collection through the Ingenta Connect compilation service. Ingenta Connect is an online bibliographical service and global research gateway that offers: more than 700 full-text articles in PDF format (some free, some pay-per-view), linking of bibliographical references for indexed articles, and an easy-to-navigate, user-friendly format.

Separately and together, the components of the PAHO Electronic Collection are valuable reference tools for decision makers in health-related issues, public health and medical professionals and students, scientific researchers, and all others interested in the potential contribution of human health to socioeconomic development and well-being.

RIGHTS TO TRANSLATE AND REPRINT PAHO PUBLICATIONS

PAHO produces and disseminates reliable information and provides guidance in all matters dealing with public health policy and practice, as a way to fill the current breach between scientific and technical analysis and the conduct of health promotion, disease prevention, and health care activities.

We welcome publishers, government and academic institutions, and NGOs to become multipliers of the Organization's scientific and technical information by making PAHO's intellectual output available in the appropriate languages in some of the world's lesser-developed areas where access to basic and reliable public health information is critical.

PAHO uses a standard licensing agreement adaptable to specific circumstances. Commercial and noncommercial requests will be considered as well, with the payment of nominal royalties to PAHO, depending on the particular case.

CUSTOMERS INSIDE THE U.S.A.

Customers in the U.S.A. have two choices for shipping: regular mail and express mail. We accept purchase orders from government institutions in the U.S.A. Payment terms are 30 days net.

CUSTOMERS OUTSIDE THE U.S.A.

Orders should be sent to the local sales agent who will accept payment in local currency at their local price level. If no sales agent exists in the country, you can contact the PAHO/WHO Country Office or send the order to the PAHO Sales and Distribution Center in the United States. All checks received in the U.S.A. must be made payable to PAHO, in U.S. dollars, and drawn against a U.S. bank. Payment also may be made by international credit card (Visa, MasterCard, American Express).

CUSTOMS, TAXES

The PAHO Publications Program is unable to estimate the charges that may be assigned to a package upon entering a country. Please note that clients are responsible for any customs charges, tariffs, taxes, or brokers fees that may be levied.

SPECIAL DISCOUNTS

Bookstores	20%
Libraries	10%
Faculty	10%
Students	10%
50+ copies	30%

SALES AGENTS

Contact sales@paho.org to inquire about sales agents and discounts. Discounts offered for product sets are not valid for sales agents.

CLAIMS, RETURNS, AND CREDIT
POLICY

PAHO is not responsible for books damaged in foreign mail systems and must charge for the reshipment of damaged orders. Credit will be issued directly to the purchaser only if the book delivered was an error on the part of PAHO, or if the original book is no longer available. PAHO will not issue cash refunds for returned books.

BACK ORDERS

Books will be sent based on availability. If a book in your order is not available, it will be back-ordered and sent to you as soon as possible.

REPRINTS AND TRANSLATIONS

Information products of the Pan American Health Organization enjoy copyright protection unless otherwise stated. All rights are reserved. PAHO welcomes requests for permission to reproduce or translate its publications, in part or in full. For permission to reproduce figures, charts, or a complete publication, please fill out the application form that appears on the PAHO online bookstore at:

OTHER PUBLICATIONS NOT IN
CATALOG

The catalog lists all books, technical papers, and documents issued by the Publications Area of the Pan American Health Organization. Individual programs also publish materials which can be found at the PAHO Web site.

EXAMINATION COPIES

Professors who are interested in examining PAHO publications for possible use in courses should contact us by fax: (202) 338-0869, or e-mail: examination@paho.org. Please indicate the course and the university, and include US\$ 15.00 for shipping and handling if you live in the United States, US\$ 20.00 if you are outside the United States.

FREE DISTRIBUTION discontinued

Due to budgetary constraints and the increased cost of distribution, the PAHO Publications Area can no longer provide PAHO books and journals free of charge. We regret the inconvenience.

WEB 2.0: A NEW FORM OF WORK IN THE PAN AMERICAN HEALTH ORGANIZATION

The new PAHO Web encompasses the following fundamental principles with regard to the dissemination of and access to all content produced by PAHO:

- Equity
- Convergence
- Standardization
- Scalability
- Integration with WHO

The new Web 2.0 ensures and promotes the convergence of all institutional portals of the Country Offices and Specialized Centers, as well as the Virtual Health Library, the Virtual Campus in Public Health, and the Regional Public Health Observatory.
